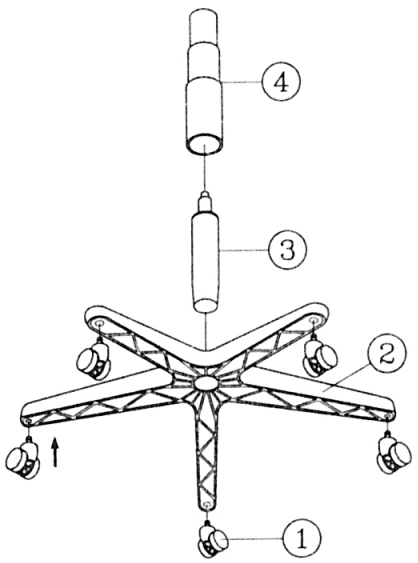
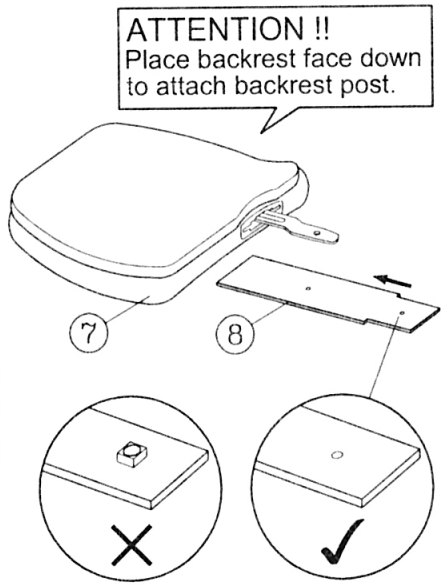
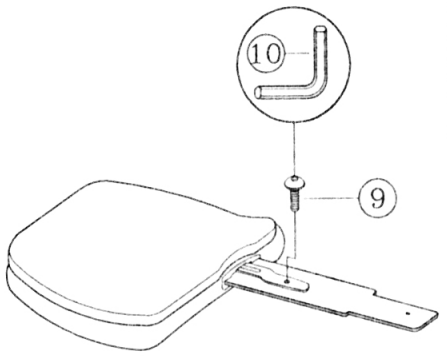
STEP 1.



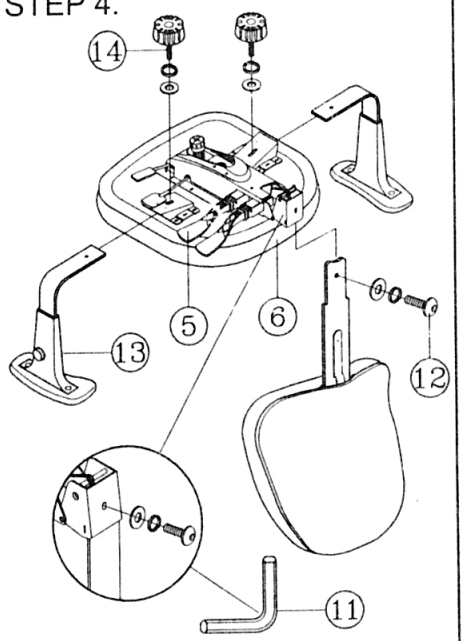
STEP 2.

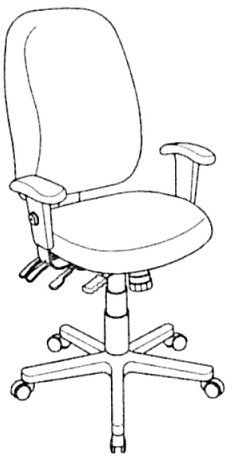


STEP 3.



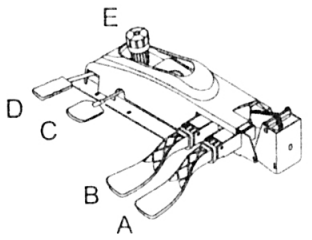
STEP 4.





Ratchet Back Height Adjustment

To raise the back, slowly lift the back up until you hear a series of 4 to 5 clicks. Each click represents a position where the back will lock into place.
To lower the back, raise the back all the way up until tension is released - the back will then return to the lowest position without stopping.
Raise back up to desired position.



(A) Back angle adjustment lever.
(B) Combination seat / back angle adjustment lever with infinite lock.
(C) Seat height adjustment lever.
(D) Forward tilt lever
*While seated, lift lever B and then lean back to activate locking mechanism;
*Pull lever D backward to allow seat to tilt forward- or - push lever D forward to straighten seat;
*To lock in desired position, push lever B downward.
(E) Tension control knob-Turn colockwise to increase tension and counter-clockwise to decrease tension.
